- 1X User Manual
- 1X Portable Charging Case
- 1X Type-C Charging Cable
- 2X Pairs Earcaps

Overview Of Earbuds

Function Operation

Binaural Mode(both earbuds together)

How To Use

Set Up Your Earbuds

Power on: Take out earbuds from charging case; Or long press L or R bud about 5S, it will power on automatically.
Power off: Put earbuds in the case and then close the case, they will power off automatically; Or long press L or R bud about 5S, they will power off automatically.

Single Earbud Connection

Take out only one earphone from the charging case. Turn on your phone's Bluetooth, search for "AWEI TP29 ANC AI," and tap to pair and connect. (After successful connection with the phone, the earphone will flash icy blue light continuously in single bursts, and you will hear the prompt "Connected.")

Double Earbuds Connection

1. Open the charging case, and both earphones will automatically power on and connect to each other. The master earphone will flash blue and white alternately, indicating the earphones have entered pairing mode. (This means the device is in searching state; you can turn on your phone or other Bluetooth devices to connect at this time.)
2. Turn on your phone or other Bluetooth devices, search for "AWEI TP29 ANC AI," and tap to pair and connect. (You will hear "Connected" when the pairing is completed.)
3. Automatic Reconnection: When powered on, the earphones will automatically reconnect to the paired phone. (This requires that the phone's Bluetooth is enabled and the pairing record between the phone's Bluetooth and this device has not been cleared.)

How To Use

Note

1. The two earphones are pre-paired at the factory. Therefore, when you receive the earphones (both of them), simply take them out of the charging case to use.

2. If the two earphones fail to pair automatically, place both the left and right earphones into the charging case and then take them out. The left and right earphones will be forced to pair automatically without any additional operations. (Note: After opening the lid, check if the earphones are connected to the case—the Bluetooth icon at the top-left corner of the display being white indicates a successful connection, while red indicates no connection.)

3. If one earphone has no sound after connecting to your phone: Turn off your phone's Bluetooth, place both earphones back into the charging case, then take them out again to power them on.

4. If the earphones are not connected to any device within 5 minutes after being turned on, they will shut down automatically.

How To Use

LCD Screen Operation

Press the power button on the back to turn it on/off before performing any touchscreen-related operations. Short-press the power button on the back of the charging case, and the case will light up. Swipe left to unlock the screen, then you can touch the screen to operate and switch between different functions—just like the screen of a smartwatch.

Note: On the charging case, the Bluetooth icon at the top-left corner will turn red if the earphones are not connected to the case. When you open the case, the Bluetooth icon must be white to indicate that the earphones are connected to the case. If the connection fails, press the button on the back 3 times. Once the Bluetooth icon turns white, the connection is successful, and you can then use your phone to connect to the earphones for normal use.

Status lights

1. Earbuds: Green light stays on while charging; light turns off when fully charged; green and white lights flash alternately while pairing.
2. Charging Case: Battery level is displayed while charging; shows 100% when fully charged.
